Bucas Catalogue

www.shoofdirect.co.nz

Welcome

Since 1981 Bucas merged a great Irish equestrian tradition with the latest technical developments and experience from other industries, countries and markets. This has resulted in the development of a wide range of highly innovative and technically advanced products for your horse.

TERMS EXPLAINED

BALLISTIC NYLON, 1680 Denier

Ballistic nylon is extremely durable, made using a very tight knit “ballistic weave.” This is a half panama weave that is tear resistant in all directions.

RIPSTOP OUTER

Ripstop is the pattern of the weave that makes the material less prone to tearing. This weave helps prevent any rips that do occur from spreading through the material.

THERAPY

A specially formulated fabric from Bucas. The fabric reflects the naturally occurring magnetic fields within the body, improving circulation, helping to warm up muscles faster and promotes healing properties.

ANTIBACTERIAL

The anti-bacterial lining helps to keep the rug fresh and eliminates odours.

DERMO-CARE

Silky Dermo-care lining with wicking properties helps to dry the horse's coat after washing or exercise, keeping the coat smooth and soft.

STAY-DRY

Stay-dry fleece fabric wicks away moisture from your horse's skin.

ZEBRA EFFECT

Zebra stripes have been proven to confuse and repel flies.

WATERPROOF

Waterproofing: > 5000 mm Hydrostatic head

BREATHABLE

Breathability: > 3000 g/24h/m²

LAYERING SYSTEM

Bucas Liners, Quilts and Coolers can be used under Turnouts as an extra layer of insulation.

SHOULDER DARTS

Shoulder Darts help to give your horse a more tailored fit across the chest and shoulder area. These are a signature design feature from Bucas.

ANTI-INSECT

Designed to repel insects.

CLICK'N GO

Click'n Go is a special patented closure only available from Bucas. Easy for a human to close and open but difficult for your horse!

SNAP-LOCK

Snap-lock magnetic closure keeps your Bucas rug correctly positioned on your horse. It eliminates the use of Hook and Loop closures on the chest, making it a more comfortable fit for your horse.

HEAT REFLECTIVE

Heat reflective rugs help to reflect the sunlight, preventing the rug from absorbing the heat and heating up the horse.

RECYCLED

Manufactured using Certified Recycled Materials.

Power Turnout

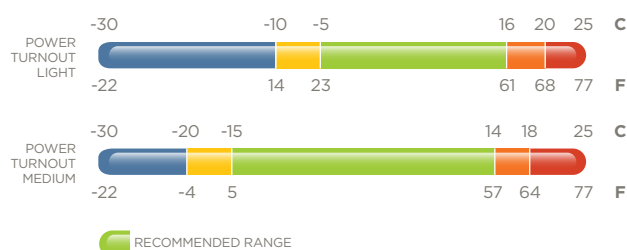

Extraordinary strength, durability and protection at a wide range of temperatures.

The **Power Turnout** has a heat reflective aluminium inner coating and a sun reflective silver outer which extends the temperature range in which the Power Turnout can be used. It also comes with Stay-dry, Anti-Bacterial lining which means the rug can be put on a wet horse in the same way as a sweat rug. It will quickly dry the horse and can be left on, thus avoiding any extra rug changes.

Features Include:

- Ballistic nylon outer, 1680D
- Waterproof > 5000 mm Hydrostatic head
- Breathable > 3000 g/24h/m²
- Aluminium inner coating reflects body heat
- Silver outer reflects sun light
- Reflective strips on front and tail flap
- Stay-dry fleece lining
- Anti-bacterial lining
- 150g / 0g insulation
- Silk-feel shoulder lining
- Click'n Go with magnetic Snap-lock closure
- Shoulder darts
- Cross surcingles
- Deluxe leg straps
- Deluxe tail cord & Tail flap
- Attachments for Neck
- Connection points for use with Bucas Liners & Coolers

Recommended Temperature Ranges*

* Actual range depends on many factors, including
- clipped/unclipped - sunshine - humidity - wind - horse activity

The Power Neck fits perfectly with the Bucas Power Turnout.

The neck can also be attached to other Bucas covers that have a neck attachment point.

Available in sizes XS-XL

Smartex Turnout

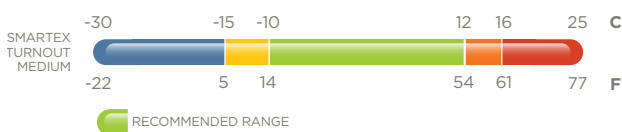

The **Bucas Smartex Turnout** range combines superb durability and comfort for your horse, across a broad range of temperatures, and are considered the most versatile turnout rugs available.

The **Smartex Range** can be put on a wet horse after exercise or washing and the Stay-dry lining will wick away moisture, drying your horse, while the lining remains dry next to your horse's skin. The ballistic nylon offers superb durability.

Features Include:

- Ballistic nylon outer, 1680D
- Waterproof > 5000 mm Hydrostatic head
- Breathable > 3000 g/24h/m²
- Stay-dry fleece lining
- Og insulation
- Silk-feel shoulder lining

Irish Turnout

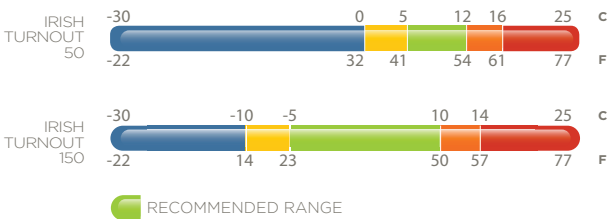

The **Irish Turnout** rug is a performance rug that gives value for money and super flexibility to suit your horse's needs.

The **Irish Range** comes with a silky, breathable Dermo-care lining that helps to keep the skin and coat of the horse healthy and smooth. The robust 1200D Ripstop outer means your horse is well protected from the weather.

Features Include:

- Polyester Ripstop outer, 1200D
- Waterproof > 5000 mm Hydrostatic head
- Breathable > 3000 g/24h/m²
- Dermo-care lining
- T-bar with magnetic Snap-lock closure
- Shoulder darts
- Cross surcingles

The Bucas Liner is an integral component of the continually expanding Bucas Layering System.

100g of thermobonded insulation, offering the ability to turn your light turnout into the perfect transitional Autumn rug or a heavyweight Winter rug.

The front neck closure attaches to the Neck attachment points and the rear attachment hook and loop strap attaches to the rear D-rings of your top rug.

The Polyester silky outer sits perfectly with both the Bucas Stay-dry lining rugs and the Bucas Silk-feel/ Dermo-care lined rugs. It comes in a reduced depth and is quilted so the liner sits perfectly underneath your Bucas rug. The Liner comes with the convenient Dermo-care lining which helps to wick the moisture from your horse's skin while keeping the coat silky smooth.

Features Include:

- Polyester quilted outer
- Dermo-care lining
- Shoulder darts
- Reduced depth
- Front and rear attachment points for use under Bucas rugs

Shamrock Power

The Shamrock Power is an ideal multi-functional rug that performs superbly as a sweat, travel or light stable rug.

Manufactured using two layers of Bucas Stay-dry fabric. The Shamrock Power has a Stay-dry, antibacterial inner lining, and a Polyester outer.

The Stay-dry fabric can be put on a wet horse and it wicks moisture away and ensures that the horse dries faster. The anti-bacterial lining helps to keep the rug fresh and in good condition.

The polyester outer repels bedding, so should your horse lay down while wearing the cooler, minimal bedding will stick to the rugs unlike fleece coolers.

Features Include:

- Double layer heavyweight cooler
- T-bar with magnetic Snap-lock closure
- Stay-dry & Anti-bacterial lining
- Shoulder darts
- Detachable internal cross surcingles
- Silk-feel lining on shoulders
- Attachments for leg straps
- Fillet string
- Attachment points to use under any Bucas turnouts or stable rugs

The unique Anti-Bacterial Stay-dry lining, wicks moisture away from your sweaty or freshly washed horse, this ensures your horse is always dry, saving time and rug changes.

The **Competition Cooler** is a practical light-weight cooler for travelling on warm competition days.

The Stay-dry lining keeps the horse dry and comfortable, and the lower mesh part allows air to circulate to help cool the horse.

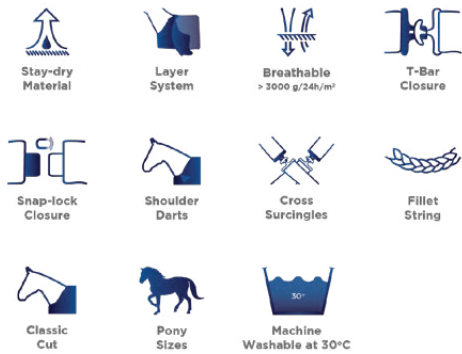

Features Include:

- T-bar with Snap-lock closure
 - Stay-dry qualities
 - Shoulder darts
 - Detachable Internal cross surcingles
- Silk-feel lining on shoulders
 - Fillet string
 - Attachment points to use under any Bucas turnouts or stable rugs

Power Cooler

The Power Cooler is a high performance, lightweight, multipurpose rug.

A single-layer cooler, ideal as a sweat, travel, competition and stable rug. Stay-dry fabric wicks away moisture and ensures that the horse is always dry.

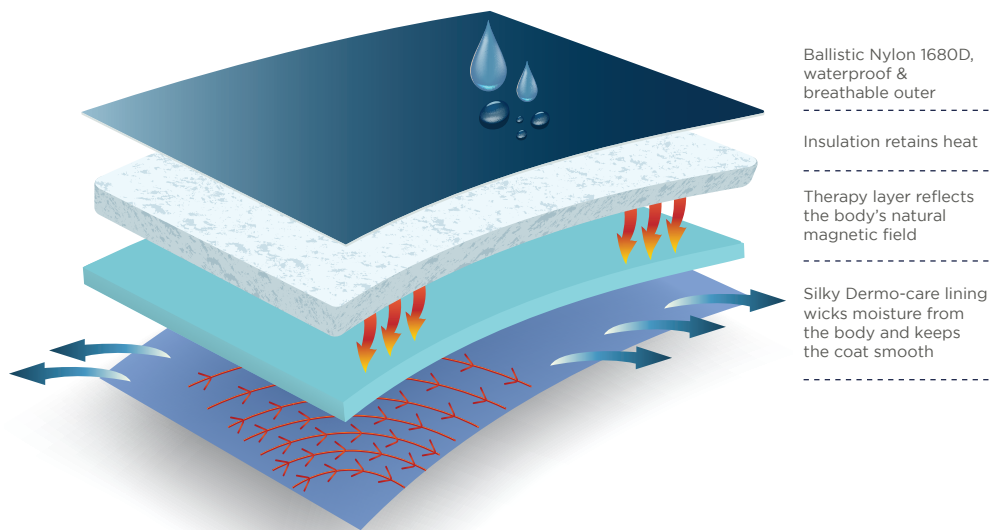

Features Include:

- Single layer cooler
- T-bar with Snap-lock closure
- Stay-dry qualities
- Shoulder darts
- Detachable Internal cross surcingles
- Silk-feel lining on the shoulders
- Fillet string
- Attachment points for use under Bucas turnouts or stable rugs

Silky Dermo-care lining
wicks moisture from
the body and keeps
the coat smooth

The Bucas Therapy Range incorporates cutting-edge technology and carefully selected materials to deliver outstanding therapeutic benefits.

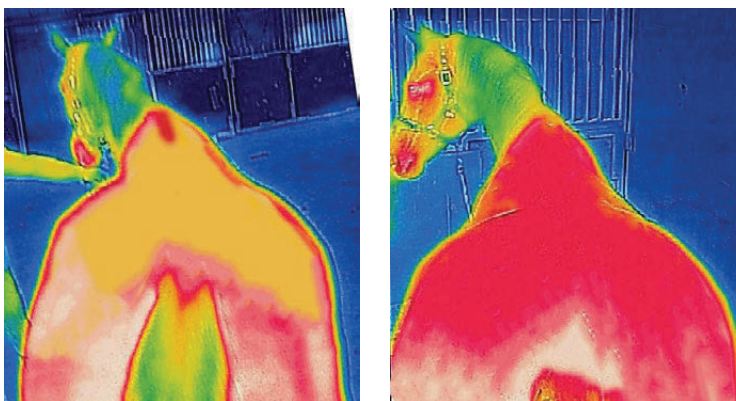

The Therapy range can be worn for 24 hours, seven days a week if necessary as it is NOT a magnetic rug, but it is advised to slowly increase and monitor the use of this or any therapy rug when first used.

This therapy is ideal for helping those with back problems or those who are a little slow to warm up before exercise. It also has been known to accelerate and compliment the recovery process of some ailments, in a natural environment. The therapeutic properties cannot be washed out. The products are designed to harness the natural properties of the body's magnetic fields, promoting improved circulation, reducing inflammation, accelerating healing, and preparing muscles for exercise.

Functions & Advantages

Thermotherapy

The innovative stainless steel mesh lining is incorporated into the therapy products and serves as an aid for harnessing and reflecting the body's natural magnetic field. By working with the body's magnetic field, the mesh stimulates blood circulation, promoting a range of positive effects on the horse's well-being.

These 2 thermal images display a horse before using a therapy rug, and after 2 hours using a Therapy Rug.

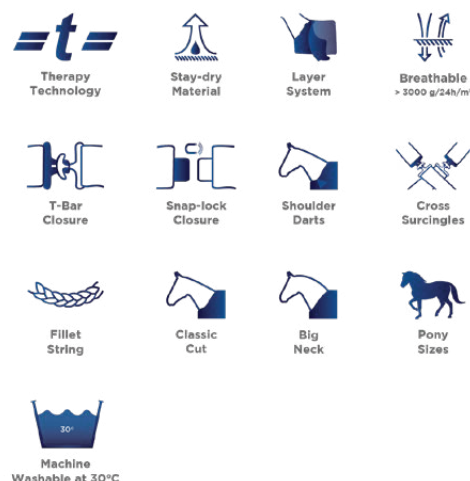

Injury prevention and healing

One of the primary advantages of the Bucas Therapy Range is its ability to enhance blood circulation. This in turn promotes faster healing and reduces inflammation. This anti-inflammatory effect can be particularly beneficial for horses recovering from injuries, or those that are slow to warm up when exercising. With increased blood circulation muscles warm up faster and can absorb more oxygen. The improved blood circulation helps to flush out toxins and reduce swelling in affected areas, promoting the healing process and reducing discomfort for the horse.

Relaxation properties

The calming effect of the Bucas Therapy range is thanks to the increased blood circulation and oxygen flow, this is especially beneficial in stressful situations such as transport or competition.

Therapy Cooler

The Bucas Therapy Cooler helps to support your horse all year round.

The **Bucas Therapy Cooler** has a Stay-dry fleece in the lower part, and Therapy fabric on the upper part.

The Stay-dry lining in the rug helps wick the moisture from our horse so it can be used if the horse is a little sweaty or washed as the Stay-dry properties will help dry the horse quicker.

The Therapy properties cannot be washed out, meaning your Therapy rug can be washed like a normal cooler!

Shoulder darts offer great freedom of movement, a T-bar with magnetic Snap-lock front closure secures the rug in front, and cross surcingles help keep it in place.

The Therapy Cooler has attachment points at the neck and rear D-rings, so the rug can be used and secured under another Bucas rug so your horse can rest and recoup relaxing in their stable or while turned out in their turnout rug.

Features Include:

- Therapy material upper
- Stay-dry lower in Therapy Cooler
- T-bar with magnetic Snap-lock
- Cross Surcingles
- Shoulder Darts
- Fillet String
- Loop for Tail Protector & Bag
- Attachment for Cooler Neck

Therapy Mesh Cooler

The **Bucas Therapy Mesh Cooler** is ideal for use during warm Summer months.

The **Bucas Therapy Mesh Cooler** comes with a lightweight mesh lower that allows the air to circulate around the horse.

Shoulder darts offer great freedom of movement, a T-bar with magnetic Snap-lock front closure secures the rug in front, and cross surcingles help keep it in place.

As with all Bucas Coolers, these rugs also feature front and rear attachment points so that they can be used under your Bucas turnout or stable rugs.

Features Include:

- Therapy material upper
- Mesh lower in Therapy Mesh Cooler
- T-bar with magnetic Snap-lock
- Cross Surcingles
- Shoulder Darts
- Fillet String
- Loop for Tail Protector & Bag
- Attachment for Mesh Cooler Neck

Therapy Dog Rug

Offering all the benefits of the Bucas Therapy horse rugs to your dog.

The **Bucas Therapy Dog Rug** helps to increase blood circulation throughout the body, warm up muscles and reduce swelling and inflammation.

It is ideal for all dogs, especially working and older dogs. It is waterproof and breathable with a ripstop outer fabric and adjustable full belly protection.

Features Include:

- Waterproof and breathable
- 50g insulation
- Ripstop outer, 600D
- Dermo-care lining
- Adjustable and secure belly strap
- Elastic rear leg straps

Buzz-Off Rain

The **Buzz-Off Rain** features a waterproof upper to protect your horse.

The **Buzz-Off Rain Zebra Full Neck** has the Buzz-Off fly sheet with a waterproof upper to protect your horse. The neck and waterproof upper offers full body and neck protection from flies as well as letting the rain roll off your horse's back.

The **Buzz-Off Rain Full Neck** is perfect for changeable summer weather. The upper part of the Buzz-Off Rain is waterproof and breathable while the lower part is made of Buzz-Off fly sheet fabric. Together you have a lightweight, UV protective and waterproof rug. The elasticated and detachable belly pad gives protection to the belly of the horse and helps to stabilise the rug in position.

Features Include:

- Waterproof upper > 5000 mm Hydrostatic head
- Breathable upper > 3000 g/24h/m²
- Sun reflective Ripstop Upper, 600D
- Elasticated, detachable belly pad
- Shoulder darts
- Mesh lining on upper part to help circulate the air underneath the rug
- T-bar with Snap-lock front closure
- Elasticated browband to help keep neck in position
- Silk-feel lining of the shoulders
- Fillet string
- Leg straps
- Large tail flap

The **Buzz-Off** range is made from a specially developed lightweight fine mesh fabric that helps block out flies.

The **Buzz-Off Full Neck** and **Buzz-Off Zebra Full Neck** rug provides protection for the horse’s body and neck. The neck helps protect the mane from flies, and an elasticated brow band helps keep the neck piece in place as the horse grazes. The elasticated and detachable belly pad ensures that the rug is kept in place as well as protecting the belly from insects and flies.

The **Buzz-Off Zebra** range of fly and insect products are made from a specially developed lightweight fine mesh fabric with Zebra print. Research has discovered that flies hate the Zebra stripes as they find them confusing. They get disoriented by the contrast of the black and white stripes, compared to solid colours, and so tend to steer clear of them!

Features Include:

- Lightweight Mesh
- T-bar with Snap-lock front closure
- Elasticated and detachable belly pad
- Shoulder darts
- Silk-feel lining on the shoulders
- Elasticated browband to help secure neck piece
- Tail flap
- Fillet string
- Leg straps
- Includes Belly Pad Extender Straps

Buzz-Off Deluxe Mask

The lightweight **Buzz-Off Deluxe Fly Mask** offers super protection against insects and sun.

Reinforced darts help keep the mesh fabric away from the horse's eyes. Hook and Loop closure on the jaw bone and magnetic Snap-lock closure on the chin groove help keeps the mask in place.

Features Include:

- Anti-UV
- Snap-lock Closure
- Mesh Fly Fabric
- Stiff Mesh over the eyes
- Elasticated throat strap

Comfort Halter

The legendary **Bucas Comfort Halters** are designed to provide great comfort.

This is provided by the soft, yet strong “silk-feel” webbing and the padded nose and headbands.

A specially, shaped ring makes it easier to open and close the halter with the snap hook and prevents the hook from rubbing against the horse.

The snap hook is designed so it is not affected by snow, ice and low temperatures. There is also an adjustable headpiece with a prong buckle.

Travel Essentials

2020 Boots

The **Bucas 2020 Boots** are made of tough outer nylon fabric and a Stay-dry inner lining.

Cushioned padding helps to fully contour to the horse's leg.

The unique front boots close differently to normal traditional travel boots. The straps fasten forward, this means the boots close across the tendons leaving the back of the knee open, for ease of movement but covering the front of the knee to protect the joint from any bangs or injury while travelling.

The Stay-dry lining helps to dry wet legs faster so by the time you finish your journey home and remove the travel boots your horse's legs will be dry and comfortable!

Sold in sets of four.

Tail Protector

The **Bucas Tail Protector & Bag** offers great protection for the horse's tail with a padded wrap around the dock, and a secure, elasticated fastening around the tail.

The added security of a Hook and Loop feature means you can attach the Tail Protector to your Bucas Coolers to prevent them from slipping. It also has a waterproof, integrated tail bag to help keep your horse's tail clean while travelling.

Available in Black and Navy.

One size.

Bucas Essentials

Max Saddle Pad

The **Bucas Max Saddle Pads** are layered with our **Antibacterial Stay-dry fabric**.

This layer helps remove sweat and moisture from the horse's back, ensuring that it is always a comfortable fit. The anti-bacterial lining helps to keep the saddle pad fresh.

Quilted with high-density wadding and hook and loop attachment points and girth straps helps keep the pad in place under the saddle.

Fits 17" – 18" saddles.

The Bucas Rug Conditioner helps to restore the water repellent finish of your Bucas turnout rug.

Should be used on the outside of your clean turnout rug. Only use in well ventilated areas. Available in 500ml and 5 litre.

Bucas Rug Conditioner 500ml or 5l

Code	223446	223447
Size	500ml	5l

Caring for Your Horse Rugs: Cleaning and Maintenance Tips

Regular care and proper washing techniques are essential for maintaining the functionality and longevity of your horse's Bucas rugs. Most Bucas rugs are machine washable, but it's important to follow the care instructions on the label.

Use Bucas Rug Wash and avoid fabric softeners as they can damage the waterproof coating. Start by shaking off or brushing away any loose dirt, hair, or debris from the rug. This step helps prevent your washing machine from becoming clogged and ensures a more effective cleaning process. Use a soft brush to loosen and remove any stubborn dirt.

Before washing, secure all straps, buckles, and fastenings. Fasten the surcingles, cross surcingles, and leg straps to prevent them from getting tangled during the wash cycle. This not only protects the rug but also ensures the longevity of these essential components.

After the washing cycle is complete, consider running an extra rinse cycle to ensure all detergent residues are thoroughly removed. Residual detergent can lead to skin irritations for your horse and might compromise the breathability of the rug.

While it may be tempting to expedite the drying process using high heat, it's essential to air dry Bucas rugs to maintain their integrity. Hanging the rug in a well-ventilated area away from direct sunlight will help preserve the waterproofing and breathability features. High heat can damage the rug's materials and reduce its effectiveness.

Store your rugs in a clean, dry place away from direct sunlight.

Spare Parts

Front Closures

Bucas Closures are available as spare parts to extend the life of your Bucas products.

T-bar front closures to keep your Bucas rug securely fastened.

Click'N Go is a special patented closure, easy for a human to close and open but difficult for your horse.

Snap-lock magnetic closure keeps your Bucas rug securely fastened. It eliminates the use of Hook and Loop closures on the chest, making it a more comfortable fit for your horse.

Size	35cm	50cm

Helpful Tips

How to measure your horse!

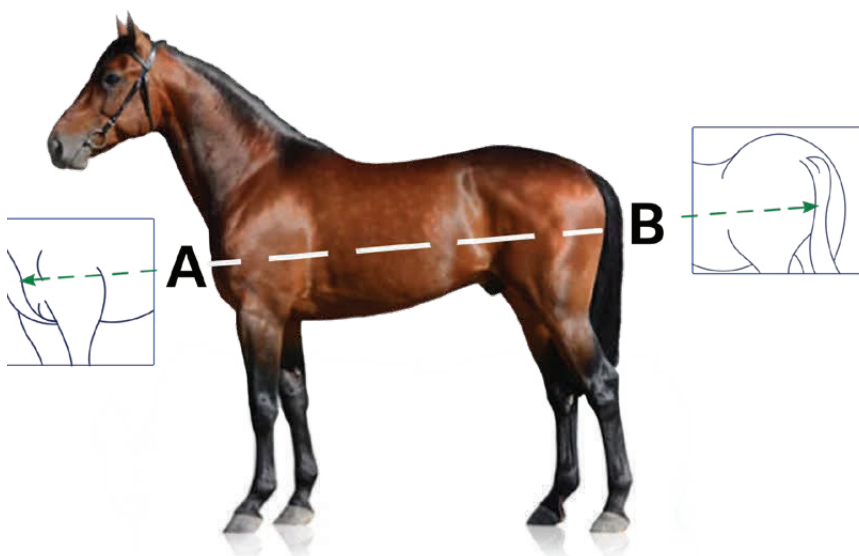

To provide your horse with the optimal fit, comfort and protection that it deserves, it is important to select the most appropriate rug for your horse.

When choosing a Bucas Rug, you must consider two factors:

- The measurement of the horse in relation to the size of rug that it needs
- The temperature range for which the rug you choose is most suited

The following instructions outline a step-by-step approach to measuring your horse for a Bucas rug to provide an optimal fit, comfort and ease of movement.

Bucas recommends that the horse be measured from (A) the center point of the chest, over the high point of the shoulder, and then to (B) the rear of the hind leg. When you have the measurement, choose the nearest size from the table below.

CM	EU/AU	NZ	Neck Rug
110	4'9	3'6	XXS
115	5'0	3'9	XS
120	5'3	4'0	XS
125	5'6	4'3	S
130	5'9	4'6	S
135	6'0	4'9	M
140	6'3	5'0	M
145	6'6	5'3	L
155	6'9	5'6	L
165	7'0	5'9	XL
170	7'2	6'0	XL

HOW TO EXTEND YOUR BUCAS GUARANTEE

- Bucas offers a 2 year guarantee against any manufacturing or material faults but you can extend it to 3 years on our Power, Smartex, Atlantic and Therapy Turnout range of rugs.
- All you need is your proof of purchase, like your receipt and the details from the label on the rug.
- Your rug must be registered within 30 days of purchase.
- Guarantee does not include normal wear and tear and accidental damage.
- Limitations apply.

How to Measure your Dog

To measure your dog correctly for a Bucas dog rug place the measuring tape where the collar usually sits on your dogs neck and measure the length of the dogs back to the start of the tail. This measurement will give you the correct size when purchasing your Bucas dog rug.

Dog Rug Size Guide	
Size	Typical Breeds
30 cm	Border Terrier, Cavalier, Shih Tzu, Scottish Terrier
35 cm	Beagle, Bichon, French Bulldog, Jack Russell, West Highland Terrier
40 cm	Cocker Spaniel, Miniature Bull Terrier, Staffordshire Bull Terrier
45 cm	Bull Terrier, Cocker Spaniel, King Charles
50 cm	Basset, Boxer, Pitbull, Springer Spaniel
55 cm	Border Collie, Dalmatian, Doberman
60 cm	Golden Retriever, Greyhound, Labrador, Rottweiler
65 cm	German Shepherd, Husky, Irish Setter, Rough Collie
70 cm	Mastiff, Rhodesian Ridgeback
75/85 cm	Great Dane, Newfoundland, St. Bernard
