

Disposable Boot Covers

Features:

- Waterproof polypropylene
- Generously sized and easily donned
- Elasticated top and ankle ties
- Two-layer sole for extra strength

Product Information:

Generous-size polyethylene boot covers. Elastic tops plus ankle ties. Good for use over shoes or boots. Sole is double layer for extra penetration resistance. All farms should have a pack of these on hand for use in potentially-risky biological situations (suspicious births, or abortions, etc).
