

Boom Kleen

Features:

- Dissolves residue
- Prevents corrosion
- Safe on metal and plastic
- Lubricates pumps
- Cleans and disinfects
- Low foaming

Product Information:

Boom Kleen is an alkali based detergent formulated for cleaning agricultural spray equipment contaminated with residues. Boom Kleen is a corrosive substance that cleans and neutralises all internal pump, hose and boom surfaces but is harmless to grass and crops. Use at the beginning and end of the season as well as at regular intervals and between different spray programs and prior to spraying legumes after Sulfonylurea herbicides..
