Please note:	Consult with your shed inspector to find the best method of disposing of your full sharps container

PRODUCT INFORMATION

Safe disposal of all waste has become an important criteria under today's OSH legislation. MPI regulations for Operation of Farm Dairies (May 2017) state: "Used needles should be placed into a sharps container for appropriate disposal." These containers are designed for safe disposal of all sharps, needles, scalpels, glass etc and contaminated materials. Their design inherently prevents access or accidental loss of contents.

NB: Shoof does not offer or accept in any way responsibility for sharps disposal. Please speak to your local veterinarian or medical waste company.

Small Container is 100mm x 100mm x 200mm high

Large Container is 250mm x 170mm x 200mm high
