

Economy Calf Puller

Features:

- Break–apart shaft
- Traction device for smooth pulling
- Choice of tandem or sequential pull
- Value for money

Product Information:

Here is the best value mechanical calf puller you will find. Made in the same style as our famous HK brand pullers. It features a 1.6m long “threaded” shaft, which breaks in half for easy transport. Traction assembly with 35cm long handle, for easy use, and choice of sequential or tandem pulling points. The head frame is steel and also incorporates a rump chain to better retain the puller head on the cow. The puller is supplied complete with ropes. This device is reasonable quality at a very good price.

All galvanised. Parts available.
